

Dear Students

Plaksha University, a new and upcoming university has started the Young Technology Scholars(YTS), a two-week summer program designed for high schoolers from Class 9-12. The aim is to expose students to real-world engineering and problem solving through **hands-on learning** and **interdisciplinary coursework**

Key Highlights

- **Lectures** - Learn from global academicians - who light your curiosity by making you analyze the 'why' of problems
- **Exercises** - Learn the fundamentals of electronics, programming by building small circuits, and writing small codes
- **Projects** - Tinker & experiment to develop ideas that potentially address a global challenge
- **Mentorship and Guest Sessions** - Entrepreneurs from diverse backgrounds guide, inspire and motivate you to excel

YTS 2023 details

- **Program dates:**
 - Cohort A: June 11 - 25, 2023
 - Cohort B: June 18 - July 2, 2023
- **Duration:** 2-weeks
- **Location:** Plaksha University, Mohali
- **Eligibility:** students from Grade 9 - 12 (as of June 2023)
- **Application deadline:** Mar 15, 2023
- **There is no application fee**
- **Program Fee:** INR 90,000
 - Early bird application until March 15: at INR 75,000
- **Admission is on a rolling basis**
- **Scholarships of up to 100% are available (based on need)**

Plaksha University supports female students in STEM and would like to have them in YTS 2023.

The YTS Program will help you add your experience to your portfolio.
